Brief Overnight Closures on I-95 North Ramps Next Week

St. Augustine, Fla. – The Florida Department of Transportation (FDOT) will temporarily close the I-95 northbound entrance and exit ramps at U.S. 1 and the I-95 northbound rest area (mile marker 302) next week, weather and schedule permitting.

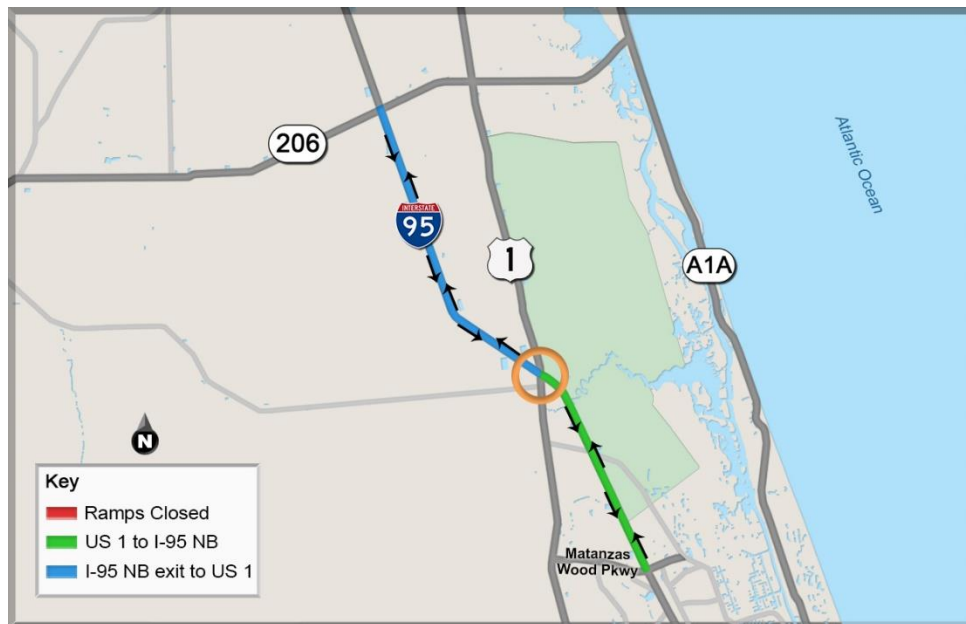

These brief overnight rolling closures will allow crews to safely mill and resurface the right lane of I-95 northbound within the project area. Electronic message boards will alert drivers of the closure. Drivers are encouraged to use FL511.com and plan ahead.

U.S. 1:

The I-95 northbound U.S. 1 entrance and exit ramps are expected to be temporarily closed for approximately four hours between 7 p.m. and 7 a.m. Tuesday, June 23 and Wednesday, June 24, weather and schedule permitting.

As shown in the map below, drivers attempting to exit I-95 northbound at U.S. 1 will be detoured north to the State Road 206 exit onto to I-95 southbound, where they can exit onto U.S. 1.

Drivers attempting to enter I-95 northbound from U.S. 1 will be detoured onto I-95 southbound to the Matanzas Woods Parkway exit, where they can access I-95 northbound.

I-95 Northbound Rest Area:

The ramps to the I-95 northbound rest area south of State Road 206 (mile marker 302) are expected to be temporarily closed for approximately four hours between 7 p.m. and 7 a.m. Thursday, June 25 and Friday, June 26, weather and schedule permitting. The next rest area is located 29 miles north of the closure at mile marker 331.

The work is part of FDOT's I-95 resurfacing project in St. Johns County, which consists of milling and resurfacing both directions of I-95 from the Flagler County line to just south of State Road 207, including the interstate entrance and exit ramps for State Road 206 and U.S. 1.

Hubbard Construction is expected to complete the \$22.6 million project in fall 2022, weather and schedule permitting.
