Edgewood Avenue South Resurfacing to Start Next Week

JACKSONVILLE, Fla. – The Florida Department of Transportation's Edgewood Avenue South from U.S. 17 to Cassat Avenue resurfacing project is expected to start next week, weather and unforeseen circumstances permitting.

The project includes:

- Milling and resurfacing of Edgewood Avenue from U.S. 17 to Lenox Avenue and Lenox Avenue from Edgewood Avenue to Cassat Avenue.
- Construction of a roundabout-style traffic configuration at the intersection of Edgewood Avenue and Plymouth Street for improved traffic flow.
- Installation of bike lanes, shared use lane markings, mid-block crossings and traffic signal, sidewalk and signage upgrades.
- Lighting upgrades including new luminaires for streetlights and under-deck lighting at the U.S. 17 overpass.

Traffic will be maintained in accordance with FDOT design standards throughout the project. No lane closures will be permitted on Edgewood Avenue from Roosevelt Boulevard (U.S. 17) to Mayflower Street between 7 a.m. and 10 p.m. From Mayflower Street north to Lenox Avenue and over to Cassat Avenue, one lane in either direction will be open at all times.

FDOT selected Superior Construction to complete this \$7.66 million project in summer 2024, weather and unforeseen circumstances permitting.

Stay informed about lane closures and roadwork in your area by following FDOT District 2 at [@MyFDOT_NEFL](https://twitter.com/MyFDOT_NEFL) on Twitter, at [MyFDOTNEFL](https://www.facebook.com/MyFDOTNEFL) on Facebook or by visiting [nflroads.com](https://www.nflroads.com).

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
