FDOT to Host Feb. 15 Hybrid Access Management Public Meeting for Proposed Improvements to State Road 211

JACKSONVILLE, Fla. – The Florida Department of Transportation (FDOT) will host a public meeting inviting citizen input and questions regarding proposed modifications as part of a resurfacing project on State Road 211 from San Juan Avenue to I-95. In addition to milling and resurfacing, improvements include the addition of bike lanes, shared use lane markings, sidewalk upgrades, signage, and lighting upgrades. Under the preliminary plans, some parking would be removed to improve intersection/driveway sight lines and enhance safety.

The hybrid public meeting will be held Wednesday, Feb. 15 at the FDOT Jacksonville Urban Office Training Center, located at 2198 Edison Avenue, Jacksonville, FL 32204. Project staff will be available to answer questions and accept comments in-person, online at nflroads.com/VPH or by phone at (631) 992-3221, access code 816-697-148.

Citizens may drop by anytime between 4:30 and 6 p.m. to learn more about the scope of the project, offer input and view conceptual renderings of the project. A formal presentation and public comment period for both in-person and virtual participants will begin at 6 p.m.

Stay informed about lane closures and roadwork in your area by following FDOT District 2 at [@MyFDOT_NEFL](https://twitter.com/MyFDOT_NEFL) on Twitter, at [MyFDOTNEFL](https://www.facebook.com/MyFDOTNEFL) on Facebook or by visiting nflroads.com.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
