FDOT to Host State Road 211 from St. Johns Avenue to Marquette Avenue Parking Reconfiguration Access Management Public Meeting

JACKSONVILLE, Fla. – The Florida Department of Transportation (FDOT) will host a hybrid public meeting Tuesday, August 29 to discuss proposed parking improvements on State Road 211 between St. Johns Avenue and Marquette Avenue.

These parking improvements are part of a resurfacing project on State Road 211 from San Juan Avenue to I-95, currently expected to start in summer 2024. Under the proposed design, FDOT is considering a reconfiguration of parking that would increase access to businesses, calm traffic and improve safety for all road users.

The hybrid public meeting will be held Tuesday, August 29 beginning at 4:30 p.m. at the FDOT Jacksonville Urban Office Training Center located at 2198 Edison Avenue, Jacksonville, FL 32204. Project staff will be available to answer questions and accept comments in-person, online at nflroads.com/VPH or by phone at (415) 930-5321, access code 366-212-428.

Citizens may drop by anytime between 4:30 and 6 p.m. to learn more about the proposed parking reconfiguration, offer input and view conceptual renderings of the proposal. A formal presentation and public comment period for both in-person and virtual participants will begin at 6 p.m.

Stay informed about lane closures and roadwork in your area by following FDOT District 2 at [@MyFDOT_NEFL](https://twitter.com/MyFDOT_NEFL) on Twitter, at [MyFDOTNEFL](https://www.facebook.com/MyFDOTNEFL) on Facebook or by visiting nflroads.com.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
