ICYMI: Downtown St. Augustine (King Street at State Road A1A) Drainage Improvement Project Begins Construction, Open House April 18

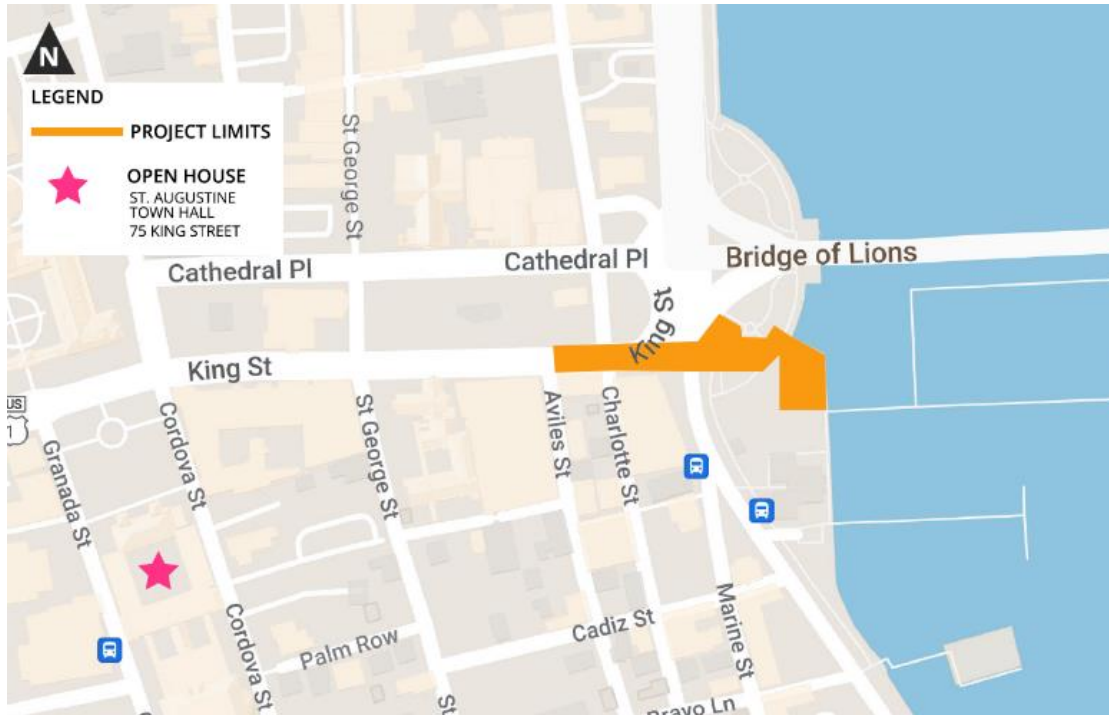

ST. AUGUSTINE, Fla. – Construction on a drainage improvement project at the intersection of State Road 5A (King Street) and State Road A1A (Avenida Menendez) in downtown St. Augustine is scheduled to begin this month.

Superior Construction was selected to complete the \$4.2 million project, which includes replacing and adding drainpipe on King Street near Avenida Menendez and up to the Bay Wall. Improvements under this project also include constructing a concrete masonry wall system, new timber pergola, metal and concrete stanchions with guard railing, curb and gutter, sidewalk upgrades, bicycle path, lighting, asphalt resurfacing, and other incidental construction. New landscaping will be installed in the area once the project is completed.

The Florida Department of Transportation (FDOT) will host a construction open house for the King Street (State Road 5A) at Avenida Menendez (State Road A1A) drainage improvement project Tuesday, April 18 at the St. Augustine City Hall, City Commission Room, 75 King Street. The informal open house will give the public the opportunity to learn about the upcoming project and discuss details with FDOT staff and engineers.

Interested parties may drop by anytime between 4 and 6 p.m. to view project maps and talk with the project team. The open house will also be accessible online at nflroads.com/vph or by phone at (213) 929-4212, access code 839-428-672.

Drivers can expect detours in the immediate area as the project enters its final phases. Completion is estimated in late 2023, weather and unforeseen circumstances permitting.

Stay informed about lane closures and roadwork in your area by following FDOT District 2 at [@MyFDOT_NEFL](https://twitter.com/MyFDOT_NEFL) on Twitter, at [MyFDOTNEFL](https://www.facebook.com/MyFDOTNEFL) on Facebook or by visiting www.nflroads.com.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
