Nightly Lane Closures Planned March 24 to March 28 on I-295 from Morse Avenue to U.S. 90

JACKSONVILLE, Fla. – As part of the Florida Department of Transportation’s I-295 at Normandy Boulevard operational improvements and the I-295 from Morse Avenue to U.S. 90 resurfacing projects, nightly lane closures and intermittent ramp closures are scheduled Sunday, March 24 through Thursday, March 28 from 8 p.m. to 6 a.m. the following morning, weather and unforeseen circumstances permitting.

Multiple lanes may be closed along the northbound and southbound directions with intermittent ramp closures in the southbound direction for milling and resurfacing and bridge expansion joint repairs. Detours will be in place during the ramp closures.

The projects include ramp widening and operational improvements at the I-295/Normandy Boulevard interchange and resurfacing of I-295 from Morse Avenue to U.S. 90. The speed limit has been reduced to 55 mph in the construction zone throughout the duration of the project.

Hubbard Construction Company was selected to complete these projects at a cost of \$33.9 million by summer 2024, weather and unforeseen circumstances permitting.

Stay informed about lane closures and roadwork in your area by following FDOT District 2 at [@MyFDOT_NEFL](https://twitter.com/MyFDOT_NEFL) on Twitter, at [MyFDOTNEFL](https://www.facebook.com/MyFDOTNEFL) on Facebook or by visiting nflroads.com.

The Florida Department of Transportation’s mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state’s environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida’s residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department’s mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
