*****UPDATE*** Beach Boulevard at Southside Boulevard Intersection to See New Traffic Pattern Beginning Thursday Night**

JACKSONVILLE, Fla. – Drivers turning left from Beach Boulevard (SR 212) onto Southside Boulevard (SR 115) will encounter a new traffic pattern after FDOT contractors implement the Median U-Turn (MUT) concept at the intersection during overnight hours **Thursday, May 25**, weather and unforeseen circumstances permitting.

MUTs are innovative intersection designs that reroute left-turning vehicles away from the main intersection and direct them to a separate intersection, allowing more green-light time for major traffic movements. MUTs also increase the safety factor of the intersection through a reduction in vehicular conflict points. For a video of how the Beach Boulevard at Southside Boulevard intersection will function after the changes, please click the image below.

Watson Civil Construction Inc. was selected to construct this \$7.4 million project, which is expected to be complete in summer 2023, weather and unforeseen circumstances permitting.

Stay informed about lane closures and roadwork in your area by following FDOT District 2 at @MyFDOT_NEFL on Twitter, at MyFDOTNEFL on Facebook or by visiting nflroads.com.
