UPDATE: Nightly Detours on Emerson Expressway Begin March 24 With Full Detours Expected April 5

JACKSONVILLE, Fla. – The Florida Department of Transportation (FDOT) will begin improvements to Emerson Expressway (State Road 228A) requiring a series of nightly detours beginning Sunday, March 24. Nightly detours are necessary as crews prepare for continuous directional detours of Emerson Expressway beginning April 5.

During construction, motorists are encouraged to seek alternate routes in advance of the posted detours and allow extra time to reach their destinations.

Roadway improvements as part of this project include milling and resurfacing, shoulder treatments, drainage improvements, curb and gutter treatment, guardrail work and the rehabilitation of concrete along portions of the roadway.

The following detours are planned as part of the project:

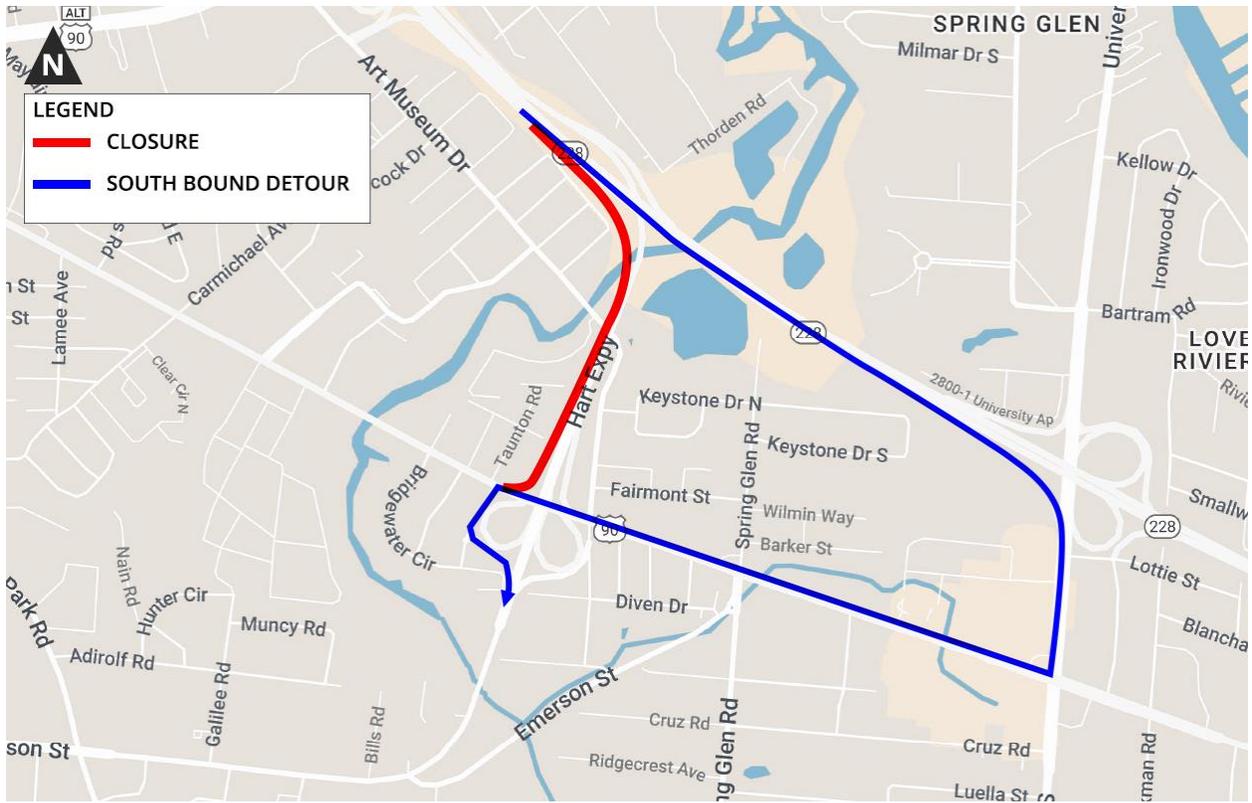

Sunday, March 24 – Saturday, April 4: Nightly detours on Emerson Expressway will take place from 6 p.m. to 6 a.m. the following morning.

Sunday, April 5: A continuous detour of southbound Emerson Expressway is scheduled to begin. Crews expect this work to be complete in two weeks; however, the roadway will reopen once the concrete reaches the required strength, and all safety inspections are performed.

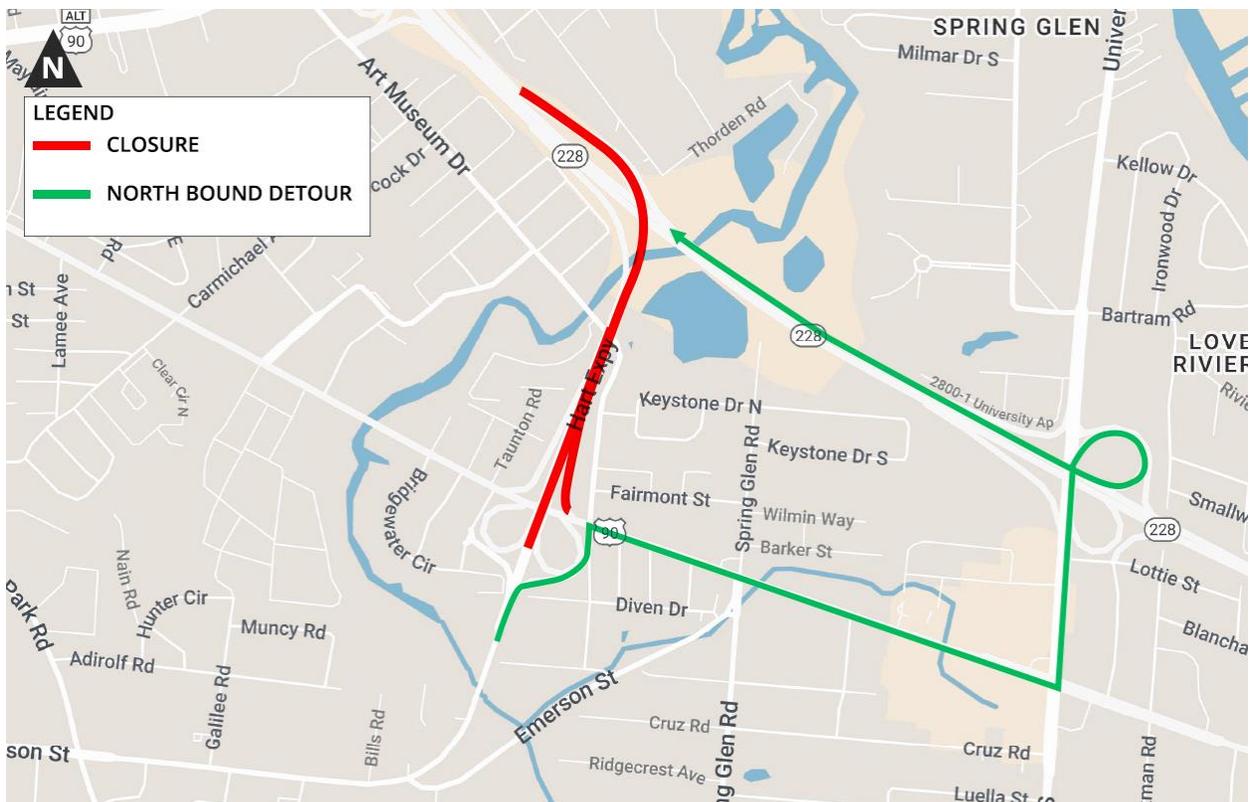

Sunday, April 19: A continuous detour of northbound Emerson Expressway is scheduled to begin. Crews expect this work to be complete in two weeks; however, the roadway will reopen once the concrete reaches the required strength, and all safety inspections are performed.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
