

# MEMORANDUM

Florida Department of Transportation  
District 2 Environmental Management Office

**Date:** August 24, 2021

**To:** Tyler Klemm, PD&E Project Manager

**From:** Aja Stoppe, D2 DCIC

**Copies To:** Michael Brock, Terri Newman, Jared Sweat

**Project:** FIN 435577-1-21-01  
I-95(SR 9) from I-295(SR 9A) TO SR 202(JT Butler Blvd)

**Subject:** Screening Evaluation Results of Pond Alternatives E-2, E-3, D-E

---

Pond Alternatives E-2, E-3, D-E were screened and evaluated for the presence of potential contamination impacts to right-of-way acquisition and construction. Pond D-E is a combination of ponds E-2 and E-3 and are treated at one general area in this screening. The pond locations are shown on the attached figures.

The subject area is currently forested land within the Julington Creek watershed. The first development in the surrounding area occurred in the late 1980s with the commercial development to the north and west of the proposed pond alternatives.

During a site visit an emergency generator with a 500 gallon diesel fuel storage tank was observed on the east side of the commercial building at 8880 Freedom Crossing Trail. The fuel storage tank is 175 ft west of the pond alternatives and contained within the generator. This was the only concern noted during the screening. It is a minor concern for potential impacts to the pond sites.

All three pond alternatives were ranked as a Low risk to the project.

Please let me know if you have any questions.
