

PUBLIC WORKSHOP

I-10 (SR 8) from I-295 to I-95

Financial Project Number 213326-2

Duval County, Florida

DATE

Thursday
March 30, 2017

TIME

Open House
4:30—6:30 PM
(No Presentation)

Public Comment Period
6:30 PM

LOCATION

FDOT Urban Office
2198 Edison Avenue
Jacksonville, FL 32204

The Florida Department of Transportation (FDOT) is conducting a Project Development & Environment (PD&E) Study to evaluate the addition of general purpose lane capacity improvements along I-10 from I-295 east to I-95, approximately 5 miles in Duval County. I-10 is a limited access facility that provides east-west access to and from the City of Jacksonville. This portion of I-10 connects downtown Jacksonville with the western urbanized area of Jacksonville and Duval County.

This segment of I-10 experiences peak period congestion due to demand that exceeds capacity. With expectations of continued traffic congestion, this PD&E study is to evaluate the addition of general purpose lanes to provide capacity improvements and relief to congestion.

Public participation is sought without regard to race, color, sex, age, religion, national origin, disability or family status. Persons who require special accommodations under the Americans with Disabilities Act or persons who require translations services (free of charge) should contact David Tyler at the number provided at least 7 days before the workshop.

Project exhibits can be viewed after the workshop at:
