

PUBLIC INVOLVEMENT PLAN

**SR 16 from International Golf Parkway (IGP) to I-95
St. Johns County, Florida
Financial Project Number: 210447-5-32-01
Efficient Transportation Decision Making (ETDM): 14535**

In accordance with Part 1, Chapter 11 of the "*Project Development and Environment Manual*" (PD&E Manual) this Public Involvement Plan is submitted to the District Environmental Management Office for review and approval.

Submitted by: 
RS&H Project Manager

Date: _____

Approved by: 
FDOT Project Manager

Date: _____

The environmental review, consultation, and other actions required by applicable federal environmental laws for this project are being, or have been, carried out by FDOT pursuant to 23 U.S.C. § 327 and a Memorandum of Understanding dated May 26, 2022, and executed by the Federal Highway Administration (FHWA) and FDOT.

PUBLIC INVOLVEMENT PLAN**SR 16 from International Golf Parkway to I-95
Project Development and Environment Study
St. Johns County, Florida**

The Florida Department of Transportation (FDOT) District 2 recognizes that the success of any transportation improvement depends upon a successful public outreach effort. FDOT is committed to conducting a Public Involvement Plan (PIP) that focuses on soliciting community interaction and incorporating an extensive evaluation of community impacts and opinions throughout the public involvement process. The positive value of implementing a strong public involvement effort generally results in public awareness and support for the project.

The purpose of this Public Involvement Plan (PIP) is to assist in providing information to and obtaining input from concerned citizens, agencies, private groups (residential/business), and governmental entities. The overall goal of this plan is to help ensure that the study reflects the values and needs of the communities it is designed to benefit. A schedule of events and a list of documentation exhibiting compliance with these procedures are included.

This plan is in compliance with the Florida Department of Transportation's Project Development and Environment (PD&E) Manual, Part 1, Chapter 11.

I. DESCRIPTION OF PROPOSED IMPROVEMENT

Project Name: SR 16 from International Golf Parkway (IGP) to I-95
Financial Project No.: 210447-5-32-01
Federal Project No.: N/A
ETDM No.: 14535
Project Limits: IGP to I-95, St. Johns County
Class of Action: Type II Categorical Exclusion (CE)
Proposed activity: This study will evaluate widening SR 16 from a two-lane to a four-lane divided roadway.

Project Contact Information

For additional information regarding this project contact:

Darrell Locklear, PE
FDOT Project Manager
Address: Florida Department of Transportation
2198 Edison Avenue
Jacksonville, FL 32204
Telephone: (904) 360-5450
E-mail: Darrell.Locklear@dot.state.fl.us

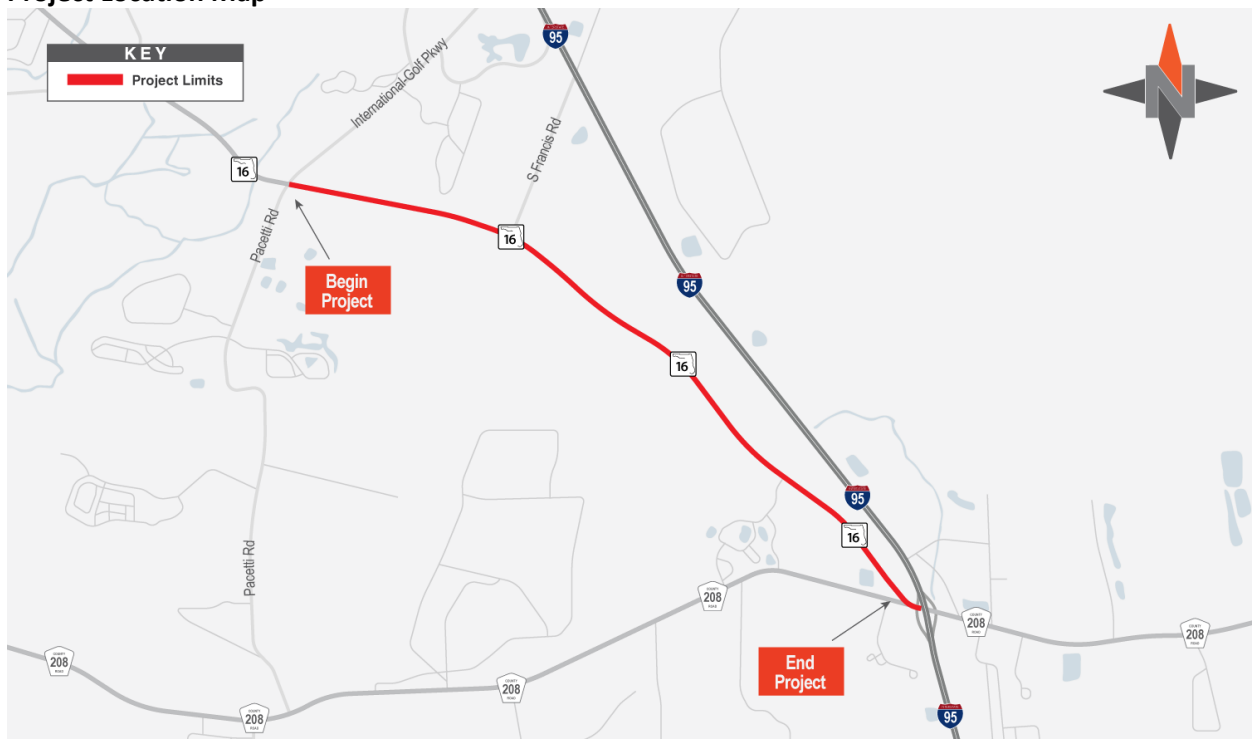

Keith Bogart, PE
Consultant Project Manager
Address: RS&H
10748 Deerwood Boulevard South
Jacksonville, FL 32256
Telephone: (904) 254-0474
E-mail: Keith.Bogart@rsandh.com

II. PROJECT BACKGROUND

This Project Development and Environment (PD&E) Study involves a 5.9-mile segment of SR 16 from IGP to I-95 in St. Johns County, Florida. Within the study limits, SR 16 is functionally classified by the FDOT as a rural principal arterial-other. Between IGP and the St. Augustine Outlet Mall, approximately 5.1 miles, SR 16 is a two-lane undivided roadway with sporadic left turn lanes and no pedestrian or bicycle features. From the St. Augustine Outlet Mall to I-95, approximately 0.8 miles, SR 16 is a four-lane divided roadway with a sidewalk located on the north side of the road from the southern entrance of the St. Augustine Outlet Mall to I-95, a distance of approximately 0.5 miles.

This study will evaluate widening the existing two-lane rural roadway to a four-lane divided roadway. In addition, multi-modal transportation improvements including continuous bicycle and pedestrian facilities will be evaluated. SR 16 has one existing bridge (Bridge number 780064) over Turnbull Creek, which is not a navigable waterway, the structural integrity and functionality of this bridge will be evaluated.

Project Location Map

III. PROJECT GOALS

- Improve traffic mobility
- Reduce congestion
- Improve intersection operations

- Improve safety
- Improve bicycle and pedestrian facilities

IV. IDENTIFICATION OF ELECTED OFFICIALS AND AGENCIES

The following local, regional, state, or federal officials and agencies having a concern in this project due to jurisdictional review or an expressed interest have been identified and will be contacted directly by FDOT through the Advance Notification (AN) process at the outset of the project in accordance with the PD&E Manual. As the other concerned public agencies are identified throughout the study, they also will be listed and contacted.

Contact information for each agency listed below is included in **Appendix A**.

State Agencies:

- Florida Department of State, Division of Historical Resources
- Florida Department of Environmental Protection, Northeast District
- Florida Department of Agriculture & Consumer Services
- Florida Department of Fish and Wildlife Conservation Commission
- Florida Department of Economic Opportunity
- Florida Department of Transportation, State Environmental Management Office
- Florida Transportation Commission

Federal Agencies:

- Federal Highway Administration
- Federal Transit Administration
- U.S. Army Corps of Engineers
- U.S. Coast Guard
- U.S. Department of Transportation
- U.S. Department of Interior, National Park Service
- U.S. Department of Interior, U.S. Fish & Wildlife Service
- U.S. Department of Commerce, National Marine Fisheries Service
- U.S. Environmental Protection Agency, Region 4
- Federal Emergency Management Agency, Region IV
- U.S. Department of Interior, Bureau of Indian Affairs

Regional Agencies:

- North Florida Transportation Planning Organization
- Northeast Florida Regional Council
- St. Johns River Water Management District
- St. Johns County Chamber of Commerce

Local Elected and Appointed Officials:

Florida State Senators for Local District:

- Travis Hutson Senator, District 7

Florida State Representatives for Local District:

- Cyndi Stevenson Senator, District 18

Federal Delegation:

- Rick Scott U.S. Senator
- Marco Rubio U.S. Senator
- John Rutherford U.S. Representative, District 4

St. Johns County:

- Christian Whitehurst Commissioner, District 1
- Sarah S. Arnold Commissioner, District 2
- Roy Alaimo Commissioner, District 3
- Krista Joseph Commissioner, District 4
- Henry Dean Commissioner, District 5
- Robert Hardwick County Sheriff
- Tim Forson Superintendent of Schools
- Dennis W. Hollingsworth Tax Collector
- Brandon J. Patty Clerk of the Court
- Eddie Creamer Property Appraiser
- Joy Andrews Interim County Manager
- Brad Bradley Deputy County Administrator
- David Migut County Attorney
- Lex Taylor Assistant Deputy County Attorney
- Teresa Bishop Planning Division Manager
- Colin Groff Utilities Director
- Rodney Cooper Traffic Engineering/Operations
- Duane Kent County Engineer
- Dick D'Souza Transportation Development Division
- R. Scott Bullard Fire Services Chief
- Joseph Giammanco Emergency Management Director

Northeast Florida Regional Council:

- Elizabeth Payne Chief Executive Officer
- Eric Anderson Emergency Preparedness Planner
- Noel Comeaux Director of Policy & Planning
- Margo Moehring RCI Executive Director
- Tyler Nolen LEPC Coordinator & Regional Planner

North Florida Transportation Planning Organization:

- Jeff Sheffield Executive Director
- Clark Letter Planning & Analytics Director
- Milton Locklear Transportation Planner
- Elizabeth De Jesus Transportation Programs Manager

- Marci Larson Public Affairs

North Florida Transportation Planning Organization Board:

- Mike Cole Nassau County Ocean, Highway and Port Authority
- Christian Whitehurst St. Johns County Commission
- Randy White Jacksonville City Council
- Terrance C. Freeman Jacksonville City Council
- Ju'Coby Pittman Jacksonville City Council
- Elaine Brown Mayor, City of Neptune Beach
- Kristen Burke Clay County Commission
- Betsy Condon Clay County Commission
- Klynt Farmer Nassau County Commission
- Fernando Acosta-Rua Jacksonville Aviation Authority
- Debbie Buckland Jacksonville Transportation Authority
- Donna Deegan City of Jacksonville
- Soo Gilvarry Jacksonville Port Authority
- Reba Ludlow St. Johns Airport Authority
- Nancy Sikes-Klive City of St. Augustine Commission
- James Bennett Baker County Commission
- Mark McManus USN Representative
- Gregory Evans FDOT District 2 Secretary

St. Johns River Water Management District:

- Mark Register District Executive Director
- Rob Bradley Chairman

Northeast Florida Regional Airport:

- Kevin C. Harvey Director

St. Johns Chamber of Commerce:

- Isabelle Renault President/CEO

V. IDENTIFICATION OF AFFECTED COMMUNITIES AND STAKEHOLDERS

The SR 16 PD&E study area is located within St. Johns County. The community surrounding the study area is urbanized containing a mixture of general commercial, and some residential land uses. In compliance with Executive Order 13166, demographic information for the study area was obtained from the U.S. Census 2017-2021 *American Community Survey Estimates*. A copy of the Sociocultural Data Report (SDR) is attached to this PIP. Using data from Census Tracts immediately adjacent to the study area (2.1%) were identified as those that speak English less than very well [Limited English Proficiency, (LEP)] with Spanish representing 12.48% of the population. Households with one or more people 65 years and over represent 18.72%. Occupied Housing units with no vehicles is 0.00%.

Therefore, no demographic concerns exist that would require special accommodations related to public meeting.

The following local, state, and national public interest groups or organizations having a direct or expressed interest in the project study have been identified and will be contacted by the FDOT:

- World Commerce Community Development District
- Grand Oaks Community Development District
- Turnbull Creek Community Development District
- Turning Point at Calvary Church
- Whisper Ridge Owners Association
- Murabella
- Windward Ranch

VI. OUTREACH ACTIVITIES

FDOT will use the following techniques to notify the public of the proposed transportation improvement and to solicit public input into the project development process.

- Newspapers:
St. Augustine Record
2155 Old Moultrie Rd, Ste 205, St. Augustine, FL 32086
(904) 829-6562
- Television:

Twitter
<https://twitter.com/MyFDOT>

In addition to working with the media, the Department will use several different notification techniques throughout the project development process. A brief description of these techniques is included below:

Letters/Newsletters:

Invitational and informational letters and newsletters will be distributed to elected and appointed officials, property owners/tenants, business owners/operators, and interested parties as feasible. Notices may be hand-delivered to residences and businesses located directly along the project corridor (optional) as deemed necessary by the FDOT.

News/Press Releases:

News/press releases will be submitted to the FDOT seven days prior to each public meeting and the Public Hearing.

Public Notices/Display Ads:

Public advertisement will consist of a display advertisement published in the St. Augustine Record twice prior to the public meeting/hearing, and once to announce Location and Design Concept Acceptance (LDCA) at the end of the study.

Public Announcements:

In order to distribute PD&E phase information, fliers may be made available to organizations such as neighborhood/civic groups and to St. Johns staff to publish in existing newsletters and websites. Any such correspondence will be coordinated through the District's Public Information Office (PIO).

Direct Mail List for Public Hearings:

The following will be contacted by direct mail in order to obtain input throughout the project development process and/or in order to provide project information:

- Property Owners, tenants, and leaseholders whose property lies, in whole or part, within at least 300 feet on either side of the centerline of each project alternative (Section 339.155, FS), as well as other local citizens who may be impacted by the construction of this project. This portion of the mailing list will be obtained from the county Property Appraiser's tax rolls.

- Local elected and appointed public officials or individuals who request to be placed on the mailing list for this project.
- Public and private groups, organizations, agencies, or businesses that request to be placed on the mailing list for this project.

Presentations to Local Officials:

Presentations may be given to the North Florida Transportation Organization (NFTPO) and St. Johns County Commission if requested by any of the elected officials or staff members. Additionally, individual meetings may be scheduled with local elected officials prior to the Public Information Meeting or Public Hearing to apprise local officials of the project status, specific location, design concepts, and to receive their comments.

Public Information Meeting:

A Public Information Meeting is anticipated to be held in December 2023. At the meeting, FDOT staff will present the conceptual project alternatives being considered and obtain comments from the general public. This meeting will follow a hybrid format to allow for virtual and in-person participation.

Public Hearing:

A formal Public Hearing, as required by federal regulations and state law, is anticipated to be held in Fall 2024. The public hearing will follow a hybrid format to allow for virtual and in-person participation.

Informal Meetings:

In addition to the scheduled public meetings, additional meetings may be scheduled with the public, elected and appointed officials, public agencies, or civic groups. The purpose of these meetings will be to apprise the attendees of the project status, specific location, design concepts, and to receive input.

National Environmental Policy Act (NEPA) Assignment Disclosure Statement Compliance:

As part of the outreach and public involvement procedures, the following disclosure language will be included on the public involvement materials related to PD&E Studies under the authority granted by the Memorandum of Understanding (MOU) between Federal Highway Administration (FHWA) and FDOT.

The environmental review, consultation, and other actions required by applicable federal environmental laws for this project are being, or have been, carried out by the Florida Department of Transportation (FDOT) pursuant to 23 U.S.C. §327 and a Memorandum of Understanding dated May 26, 2022 and executed by the Federal Highway Administration and FDOT.

Public Outreach Activity Schedule: Note that this schedule is subject to change.

- Begin Study – July 2023
- Alternatives Public Meeting – Early Winter 2024
- Public Hearing – Fall 2024
- Location Design Concept Acceptance (LDCA) – Early Winter 2025

VII. COORDINATION WITH ST. JOHNS COUNTY

Copies of aerial maps depicting all alignment and design concepts under consideration, along with draft copies of engineering and environmental study documentation, will be furnished to the St. Johns County Engineers, upon request.

VIII. PUBLIC HEARING

In compliance with the PD&E Manual, 23 CFR 771, and Section 339.155, F.S., a Public Hearing will be held.

Public Hearing Site: The Consultant will visit facilities prior to the Public Hearing to reserve an appropriate location that will accommodate the anticipated number of attendees and meet all requirements outlined in the Americans with Disabilities Act (ADA). Virtual participation will be accommodated through GoToWebinar.

Public Advertisement: The Consultant will publish a display ad twice in the St. Augustine Record newspaper, with the first ad appearing at least 15 days but no more than 30 days prior to the Public Hearing and the second ad running 7-12 days before the hearing. All advertisements will be sent to local newspapers via e-mail. These advertisements will appear in the following periodical:

St. Augustine Record
2155 Old Moultrie Rd Ste 205
St. Augustine FL 32086

The Consultant will obtain a notarized “Proof of Publication” for confirmed advertisement publication.

Online: The Consultant also will publish a notice on the *Florida Administrative Register* website at least seven days prior to the Public Hearing.

The Department will also place a notice of the hearing on the FDOT’s Public Meeting Notices website and FDOT social media sites at least seven days before the Public Hearing.

Letters of Invitation: As required by Section 339.155, FS, the Consultant will mail letters of invitation to all property owners, tenants and leaseholders whose property lies in whole or in part within 300 feet of centerline for each alternative and to local elected and appointed government officials notifying them of the upcoming Public Hearing. Hearing invitations will also be sent to the public meeting attendance roster avoiding any duplicates. Letters will include notification of request for participants with special needs (ADA) and translation services (Limited English Proficiency) within 7 days of Public Involvement events. The access management reclassification proposal will be added to all public meeting notifications, as required by FAC 14-97.005. The table on the following page summarizes the critical dates in advance of a public meeting or the public hearing.

Public Advertisement Type	Public Meeting	Public Hearing
Elected Officials Letters	25 – 30 days prior	25 – 30 days prior
Public Letters (Property Owners and Tenants)	20 days prior	20 days prior
1 st Newspaper Display Ad	10 - 14 days prior	15 – 30 days prior
2 nd Newspaper Display Ad	Not required	7 – 12 days prior
Florida Administrative Register (FAR)	7 days prior	7 days prior
FDOT's Public Meeting Notices Website	7 days prior	7 days prior
Press Release	5 days prior	5 days prior

Hearing Preparation: The FDOT District 2 Planning and Environmental Manager will moderate the formal Public Hearing. The Consultant will prepare the formal presentation with voice over, exhibits, and other relevant project data for the hearing. The hearing will be held in a hybrid format, with a virtual option held on Tuesday and an In-Person option held on Thursday, based on availability.

The Consultant will coordinate location arrangements, equipment supply, set-up (outdoor signs, tables, chairs, and other equipment), preparation of letters and handouts. FDOT will review all work products prior to the hearing.

Transcript: The Consultant will secure a court reporter for the hearing to provide a certified (notarized) verbatim transcript of the presentation and oral comments received at the hearing.

Documentation for Public Review: The Consultant will place the environmental document on display for public inspection at least 21 calendar days prior to the public hearing date. The environmental documents will also be placed on the project website. The Public Hearing advertisement and mailed letters of invitation will provide public notice regarding the location of the study documents for public review.

Suggested public review sites are:

- St. Johns County Main Branch Library
1960 N. Ponce De Leon Boulevard
Saint Augustine FL, 32084
- Bartram Trail Branch Library
60 Davis Pond Boulevard
Fruit Cove, FL 32259
- FDOT Urban Office
2198 Edison Avenue
Jacksonville, FL 32204

Title VI and Related Statutes: Information on the FDOT Title VI Program and the Uniform Relocation Assistance Program, which complies with Title VI of the Civil Rights Act of 1964, the Real Property Acquisition Policies Act of 1970 and other nondiscrimination authorities, will be provided during the Public Hearing in the presentation, by handout, signage and through available personnel.

Americans with Disabilities Act Compliance: Notification of the Department's intent to comply with the Americans with Disabilities Act (ADA) will be provided in public advertisements for the Public Hearing, in invitational letters to property owners/tenants and local officials, in handouts and by the selection of a Public Hearing site that meets all ADA requirements.

IX. PUBLIC HEARING FOLLOW-UP

The following will occur after the Public Hearing:

Public Hearing Debriefing: The Department will hold a Public Hearing debriefing with project team members if needed, to identify all issues that require additional correspondence and/or development. This meeting will assign responsibility for the issues to be addressed further.

Responses to Questions and Comments: After the hearing, the Consultant will assist FDOT in preparing letters of responses to questions and comments received from the public. The project files will include a copy of all responses.

Public Hearing Transcript Package: The Consultant will prepare a transcript package in booklet form (with cover). The transcript package will contain a verbatim court reporter transcript, presentation (including script), all public comments received in writing at the hearing and within 10 days after the Public Hearing and all handouts and information brochures used. The Public Hearing Certification Form will be completed in SWEPT by the FDOT representative (person officiating the public hearing). The official transcript will then be uploaded to SWEPT and attached to the Public Certification form.

Public Involvement Summary: A public involvement summary will be produced and submitted at the conclusion of the study. The summary includes all public involvement outreach activities, including the date, time and location of public involvement activities. Activity summaries will include photographs, mailing lists, sign-in sheets, maps, graphs, display boards and/or exhibits, comment forms, comment summaries, meeting notifications, evaluation forms, requests, surveys, presentations, and meeting minutes, as applicable. The number of people invited and the number of attendees should be documented, as well as specific issues and or concerns that were expressed as part of each activity.

Notice of Location and Design Concept Acceptance: A legal notice announcing the Office of Environmental Management's (OEM) approval of LDCA will be published in the St. Augustine Record Newspaper. In addition, press releases detailing FDOT's recommendations may be provided to local media.

X. PUBLIC INVOLVEMENT DURING DESIGN

The Design will occur under this contract. Public involvement will continue throughout the design process. The PIP will be updated and include strategies for notifying all stakeholders of the advancement of the project to this next phase of development. The appropriate level of public involvement activities will be maintained throughout the final design process.

Community Facilities

The community facilities information below is useful in a variety of ways for environmental evaluations. These community resources should be evaluated for potential sociocultural effects, such as accessibility and relocation potential. The facility types may indicate the types of population groups present in the project study area. Facility staff and leaders can be sources of community information such as who uses the facility and how it is used. Additionally, community facilities are potential public meeting venues.

Housing Tenure - St Johns

Data Sources

ACS vs Census Data

(1) The 2010 and 2020 Census data is represented by a combination of decennial and ACS data. The 2010 decennial is combined with the 5-year ACS data for 2006-2010 and the 2020 decennial is combined with the 5-year ACS data for 2016-2020. The General Population Trends, Race and Ethnicity Trends, and Age Trends are entirely from the decennial. The Income Trends, Disability Trends, Educational Attainment Trends, and Language Trends are entirely from the ACS. The Housing Trends section is derived from both: Decennial (Total # Housing Units, Housing Units per Acre, Owner-Occupied Units, Renter-Occupied Units, Vacant Units); ACS (Single-Family Units, Multi-family Units, Mobile Homes, Median Housing Value, Occupied Housing Units w/No Vehicle).

Area

(2) The geographic area of the community based on a user-defined community boundary or area of interest (AOI) boundary.

Jurisdiction

(3) Jurisdiction(s) includes local government boundaries that intersect the user-defined community or AOI boundary.

Goals, Values and History

(4) Information under the headings Goals and Values and History is entered manually by the user before the Sociocultural Data Report (SDR) is generated. This information is usually not available for communities with boundaries that are based on Census-defined places (i.e., not user-specified).

Demographic Data

(5) Demographic data reported under the headings General Population Trends, Race and Ethnicity Trends, Age Trends, Income Trends, Educational Attainment Trends, Language Trends, and Housing Trends is from the U.S. Decennial Census for 1990 and 2000 and the American Community Survey (ACS) 5-year estimates for 2006-2010 and ACS 2017-2021. The data was gathered at the block group level for user-defined communities, Census places, and AOIs, and at the county level for counties. Depending on the dataset, the data represents 100% counts (Census Summary File 1) or sample-based information (Census Summary File 3 or ACS). For more information about using demographic data, please see the training videos located here: <https://www.fdot.gov/environment/pubs/sce/sce1.shtm>.

About the Census Data

(6) The block group analysis for ETDM project analysis areas, user-defined communities, Census places, and AOI boundaries do not always correspond precisely to block group boundaries. To estimate the actual population more accurately, the SDR analysis adjusts the geographic area and data of affected block groups using the following methodology:

Delete overlapping census blocks with extremely low populations (2 or fewer people)
Remove the portion of the block group that lies outside of the analysis area
Recalculate the demographics assuming an equal area distribution of the population

Note that there may be areas where there is no population.

(7) Use caution when comparing the 100% count data (Decennial Census) to the sample-based data (ACS). In any given year, about one in 40 U.S. households will receive the ACS questionnaire. Over any five-year period, about one in eight households will receive the questionnaire, as compared to about one in six that received the long form questionnaire for the Decennial Census 2000. (Source: https://www.census.gov/content/dam/Census/programs-surveys/acs/news/10ACS_keyfacts.pdf) The U.S. Census Bureau provides help with this process: <https://www.census.gov/programs-surveys/acs/guidance/comparing-acs-data.html>

(8) Race and ethnicity are separate questions on the Census questionnaire. Individuals can report multiple race and ethnicity answers; therefore, numbers in the Race and Ethnicity portion of this report may add up to be greater than the total population. In addition, use caution when interpreting changes in race and ethnicity over time. Starting with the 2000 Decennial Census, respondents could select one or more race categories. Also in 2000, the placement of the question about Hispanic origin changed, helping to increase responsiveness to the Hispanic-origin question. Because of these and other changes, the 1990 data on race and ethnicity are not directly comparable with data from later censuses. (Source: <https://www.census.gov/library/publications/2001/dec/c2kbr01-01.html>)

(9) The "Minority" calculations use both the race and ethnicity responses from Census and ACS data. In this report, "Minority" refers to individuals who list a race other than White and/or list their ethnicity as Hispanic/Latino. In other words, people who are multi-racial, any single race other than White, or Hispanic/Latino of any race are considered minorities. We use the following formula: $\text{MINORITY} = \text{TOTALPOP} - \text{WHITE_NH}$ where TOTALPOP is the Total Population and WHITE_NH is the population with a race of White alone and an ethnicity of Not Hispanic or Latino. Translating this to the field names used in the census ACS source data, the formula looks like this: $\text{MINORITY} = \text{B01003_E001} - \text{B03002_E003}$. (Note, the WHITE_NH population is not reported separately in this report.)

(10) Disability data is not included in the 2010 Decennial Census or the 2006-2010 ACS. This data is available in the ACS 2017-2021 ACS. Because of changes made to the Census and ACS questions between 1990 and ACS, disability variables should not be compared from year to year. For example: 1) with the 1990 data, the disabilities are listed as a "work disability" while this distinction is not made with 2000 or ACS data; 2) the ACS data includes the institutionalized population (e.g. persons in prisons and group homes) while this population is not included in 1990 or 2000; and 3) the age groupings changed over the years.

(11) The category Bachelor's Degree or Higher under the heading Educational Attainment Trends is a subset of the category High School Graduate or Higher.

(12) Income of households. This includes the income of the householder and all other individuals 15 years old and over in the household, whether they are related to the householder or not. Because many households consist of only one person, average household income is usually less than average family income.

(13) Income of families. In compiling statistics on family income, the incomes of all members 15 years old and over related to the householder are summed and treated as a single amount.

(14) Age trends. The median age for 1990 is not available.

Land Use Data

(15) The Land Use information Indicates acreages and percentages for the generalized land use types used to group parcel-specific, existing land use assigned by the county property appraiser office according to the Florida Department of Revenue land use codes.

Community Facilities Data

- (16) Assisted Rental Housing Units - Identifies multifamily rental developments that receive funding assistance under federal, state, and local government programs to offer affordable housing as reported by the Shimberg Center for Housing Studies, University of Florida.
- (17) Mobile Home Parks - Identifies approved or acknowledged mobile home parks reported by the Florida Department of Business and Professional Regulation and Florida Department of Health.
- (18) Migrant Camps - Identifies migrant labor camp facilities inspected by the Florida Department of Health.
- (19) Group Care Facilities - Identifies group care facilities inspected by the Florida Department of Health.
- (20) Community Center and Fraternal Association Facilities - Identifies facilities reported by multiple sources.
- (21) Law Enforcement Correctional Facilities - Identifies facilities reported by multiple sources.
- (22) Cultural Centers - Identifies cultural centers including organizations, buildings, or complexes that promote culture and arts (e.g., aquariums and zoological facilities; arboreta and botanical gardens; dinner theaters; drive-ins; historical places and services; libraries; motion picture theaters; museums and art galleries; performing arts centers; performing arts theaters; planetariums; studios and art galleries; and theater producers stage facilities) reported by multiple sources.
- (23) Fire Department and Rescue Station Facilities - Identifies facilities reported by multiple sources.
- (24) Government Buildings - Identifies local, state, and federal government buildings reported by multiple sources.
- (25) Health Care Facilities - Identifies health care facilities including abortion clinics, dialysis clinics, medical doctors, nursing homes, osteopaths, state laboratories/clinics, and surgicenters/walk-in clinics reported by the Florida Department of Health.
- (26) Hospital Facilities - Identifies hospital facilities reported by multiple sources.
- (27) Law Enforcement Facilities - Identifies law enforcement facilities reported by multiple sources.
- (28) Parks and Recreational Facilities - Identifies parks and recreational facilities reported by multiple sources.
- (29) Religious Center Facilities - Identifies religious centers including churches, temples, synagogues, mosques, chapels, centers, and other types of religious facilities reported by multiple sources.
- (30) Private and Public Schools - Identifies private and public schools reported by multiple sources.
- (31) Social Service Centers - Identifies social service centers reported by multiple sources.
- (32) Veteran Organizations and Facilities

County Data Sources

ACS vs Census Data

(1) The 2010 and 2020 Census data is represented by a combination of decennial and ACS data. The 2010 decennial is combined with the 5-year ACS data for 2006-2010 and the 2020 decennial is combined with the 5-year ACS data for 2016-2020. The General Population Trends, Race and Ethnicity Trends, and Age Trends are entirely from the decennial. The Income Trends, Disability Trends, Educational Attainment Trends, and Language Trends are entirely from the ACS. The Housing Trends section is derived from both: Decennial (Total # Housing Units, Housing Units per Acre, Owner-Occupied Units, Renter-Occupied Units, Vacant Units); ACS (Single-Family Units, Multi-family Units, Mobile Homes, Median Housing Value, Occupied Housing Units w/No Vehicle).

About the Census Data

(34) Use caution when comparing the 100% count data (Decennial Census) to the sample-based data (ACS). In any given year, about one in 40 U.S. households will receive the ACS questionnaire. Over any five-year period, about one in eight households will receive the questionnaire, as compared to about one in six that received the long form questionnaire for the Decennial Census 2000. (Source: https://www.census.gov/content/dam/Census/programs-surveys/acs/news/10ACS_keyfacts.pdf) The U.S. Census Bureau provides help with this process: <https://www.census.gov/programs-surveys/acs/guidance/comparing-acs-data.html>

(35) Race and ethnicity are separate questions on the Census questionnaire. Individuals can report multiple race and ethnicity answers; therefore, numbers in the Race and Ethnicity portion of this report may add up to be greater than the total population. In addition, use caution when interpreting changes in race and ethnicity over time. Starting with the 2000 Decennial Census, respondents could select one or more race categories. Also in 2000, the placement of the question about Hispanic origin changed, helping to increase responsiveness to the Hispanic-origin question. Because of these and other changes, the 1990 data on race and ethnicity are not directly comparable with data from later censuses. (Source: <https://www.census.gov/library/publications/2001/dec/c2kbr01-01.html>)

(36) The "Minority" calculations use both the race and ethnicity responses from Census and ACS data. In this report, "Minority" refers to individuals who list a race other than White and/or list their ethnicity as Hispanic/Latino. In other words, people who are multi-racial, any single race other than White, or Hispanic/Latino of any race are considered minorities. We use the following formula: MINORITY = TOTALPOP - WHITE_NH where TOTALPOP is the Total Population and WHITE_NH is the population with a race of White alone and an ethnicity of Not Hispanic or Latino. Translating this to the field names used in the census ACS source data, the formula looks like this: MINORITY = B01003_E001 - B03002_E003. (Note, the WHITE_NH population is not reported separately in this report.)

(37) Disability data is not included in the 2010 Decennial Census or the 2006-2010 ACS. This data is available in the ACS 2017-2021 ACS. Because of changes made to the Census and ACS questions between 1990 and ACS, disability variables should not be compared from year to year. For example: 1) with the 1990 data, the disabilities are listed as a "work disability" while this distinction is not made with 2000 or ACS data; 2) the ACS data includes the institutionalized population (e.g. persons in prisons and group homes) while this population is not included in 1990 or 2000; and 3) the age groupings changed over the years.

(38) The category Bachelor's Degree or Higher under the heading Educational Attainment Trends is a subset of the category High School Graduate or Higher.

Community Facilities

The community facilities information below is useful in a variety of ways for environmental evaluations. These community resources should be evaluated for potential sociocultural effects, such as accessibility and relocation potential. The facility types may indicate the types of population groups present in the project study area. Facility staff and leaders can be sources of community information such as who uses the facility and how it is used. Additionally, community facilities are potential public meeting venues.

Housing Tenure - St Johns

Data Sources

ACS vs Census Data

(1) The 2010 and 2020 Census data is represented by a combination of decennial and ACS data. The 2010 decennial is combined with the 5-year ACS data for 2006-2010 and the 2020 decennial is combined with the 5-year ACS data for 2016-2020. The General Population Trends, Race and Ethnicity Trends, and Age Trends are entirely from the decennial. The Income Trends, Disability Trends, Educational Attainment Trends, and Language Trends are entirely from the ACS. The Housing Trends section is derived from both: Decennial (Total # Housing Units, Housing Units per Acre, Owner-Occupied Units, Renter-Occupied Units, Vacant Units); ACS (Single-Family Units, Multi-family Units, Mobile Homes, Median Housing Value, Occupied Housing Units w/No Vehicle).

Area

(2) The geographic area of the community based on a user-defined community boundary or area of interest (AOI) boundary.

Jurisdiction

(3) Jurisdiction(s) includes local government boundaries that intersect the user-defined community or AOI boundary.

Goals, Values and History

(4) Information under the headings Goals and Values and History is entered manually by the user before the Sociocultural Data Report (SDR) is generated. This information is usually not available for communities with boundaries that are based on Census-defined places (i.e., not user-specified).

Demographic Data

(5) Demographic data reported under the headings General Population Trends, Race and Ethnicity Trends, Age Trends, Income Trends, Educational Attainment Trends, Language Trends, and Housing Trends is from the U.S. Decennial Census for 1990 and 2000 and the American Community Survey (ACS) 5-year estimates for 2006-2010 and ACS 2017-2021. The data was gathered at the block group level for user-defined communities, Census places, and AOIs, and at the county level for counties. Depending on the dataset, the data represents 100% counts (Census Summary File 1) or sample-based information (Census Summary File 3 or ACS). For more information about using demographic data, please see the training videos located here: <https://www.fdot.gov/environment/pubs/sce/sce1.shtm>.

About the Census Data

(6) The block group analysis for ETDM project analysis areas, user-defined communities, Census places, and AOI boundaries do not always correspond precisely to block group boundaries. To estimate the actual population more accurately, the SDR analysis adjusts the geographic area and data of affected block groups using the following methodology:

Delete overlapping census blocks with extremely low populations (2 or fewer people)
Remove the portion of the block group that lies outside of the analysis area
Recalculate the demographics assuming an equal area distribution of the population

Note that there may be areas where there is no population.

(7) Use caution when comparing the 100% count data (Decennial Census) to the sample-based data (ACS). In any given year, about one in 40 U.S. households will receive the ACS questionnaire. Over any five-year period, about one in eight households will receive the questionnaire, as compared to about one in six that received the long form questionnaire for the Decennial Census 2000. (Source: https://www.census.gov/content/dam/Census/programs-surveys/acs/news/10ACS_keyfacts.pdf) The U.S. Census Bureau provides help with this process: <https://www.census.gov/programs-surveys/acs/guidance/comparing-acs-data.html>

(8) Race and ethnicity are separate questions on the Census questionnaire. Individuals can report multiple race and ethnicity answers; therefore, numbers in the Race and Ethnicity portion of this report may add up to be greater than the total population. In addition, use caution when interpreting changes in race and ethnicity over time. Starting with the 2000 Decennial Census, respondents could select one or more race categories. Also in 2000, the placement of the question about Hispanic origin changed, helping to increase responsiveness to the Hispanic-origin question. Because of these and other changes, the 1990 data on race and ethnicity are not directly comparable with data from later censuses. (Source: <https://www.census.gov/library/publications/2001/dec/c2kbr01-01.html>)

(9) The "Minority" calculations use both the race and ethnicity responses from Census and ACS data. In this report, "Minority" refers to individuals who list a race other than White and/or list their ethnicity as Hispanic/Latino. In other words, people who are multi-racial, any single race other than White, or Hispanic/Latino of any race are considered minorities. We use the following formula: $\text{MINORITY} = \text{TOTALPOP} - \text{WHITE_NH}$ where TOTALPOP is the Total Population and WHITE_NH is the population with a race of White alone and an ethnicity of Not Hispanic or Latino. Translating this to the field names used in the census ACS source data, the formula looks like this: $\text{MINORITY} = \text{B01003_E001} - \text{B03002_E003}$. (Note, the WHITE_NH population is not reported separately in this report.)

(10) Disability data is not included in the 2010 Decennial Census or the 2006-2010 ACS. This data is available in the ACS 2017-2021 ACS. Because of changes made to the Census and ACS questions between 1990 and ACS, disability variables should not be compared from year to year. For example: 1) with the 1990 data, the disabilities are listed as a "work disability" while this distinction is not made with 2000 or ACS data; 2) the ACS data includes the institutionalized population (e.g. persons in prisons and group homes) while this population is not included in 1990 or 2000; and 3) the age groupings changed over the years.

(11) The category Bachelor's Degree or Higher under the heading Educational Attainment Trends is a subset of the category High School Graduate or Higher.

(12) Income of households. This includes the income of the householder and all other individuals 15 years old and over in the household, whether they are related to the householder or not. Because many households consist of only one person, average household income is usually less than average family income.

(13) Income of families. In compiling statistics on family income, the incomes of all members 15 years old and over related to the householder are summed and treated as a single amount.

(14) Age trends. The median age for 1990 is not available.

Land Use Data

(15) The Land Use information Indicates acreages and percentages for the generalized land use types used to group parcel-specific, existing land use assigned by the county property appraiser office according to the Florida Department of Revenue land use codes.

Community Facilities Data

- (16) Assisted Rental Housing Units - Identifies multifamily rental developments that receive funding assistance under federal, state, and local government programs to offer affordable housing as reported by the Shimberg Center for Housing Studies, University of Florida.
- (17) Mobile Home Parks - Identifies approved or acknowledged mobile home parks reported by the Florida Department of Business and Professional Regulation and Florida Department of Health.
- (18) Migrant Camps - Identifies migrant labor camp facilities inspected by the Florida Department of Health.
- (19) Group Care Facilities - Identifies group care facilities inspected by the Florida Department of Health.
- (20) Community Center and Fraternal Association Facilities - Identifies facilities reported by multiple sources.
- (21) Law Enforcement Correctional Facilities - Identifies facilities reported by multiple sources.
- (22) Cultural Centers - Identifies cultural centers including organizations, buildings, or complexes that promote culture and arts (e.g., aquariums and zoological facilities; arboreta and botanical gardens; dinner theaters; drive-ins; historical places and services; libraries; motion picture theaters; museums and art galleries; performing arts centers; performing arts theaters; planetariums; studios and art galleries; and theater producers stage facilities) reported by multiple sources.
- (23) Fire Department and Rescue Station Facilities - Identifies facilities reported by multiple sources.
- (24) Government Buildings - Identifies local, state, and federal government buildings reported by multiple sources.
- (25) Health Care Facilities - Identifies health care facilities including abortion clinics, dialysis clinics, medical doctors, nursing homes, osteopaths, state laboratories/clinics, and surgicenters/walk-in clinics reported by the Florida Department of Health.
- (26) Hospital Facilities - Identifies hospital facilities reported by multiple sources.
- (27) Law Enforcement Facilities - Identifies law enforcement facilities reported by multiple sources.
- (28) Parks and Recreational Facilities - Identifies parks and recreational facilities reported by multiple sources.
- (29) Religious Center Facilities - Identifies religious centers including churches, temples, synagogues, mosques, chapels, centers, and other types of religious facilities reported by multiple sources.
- (30) Private and Public Schools - Identifies private and public schools reported by multiple sources.
- (31) Social Service Centers - Identifies social service centers reported by multiple sources.
- (32) Veteran Organizations and Facilities

County Data Sources

ACS vs Census Data

(1) The 2010 and 2020 Census data is represented by a combination of decennial and ACS data. The 2010 decennial is combined with the 5-year ACS data for 2006-2010 and the 2020 decennial is combined with the 5-year ACS data for 2016-2020. The General Population Trends, Race and Ethnicity Trends, and Age Trends are entirely from the decennial. The Income Trends, Disability Trends, Educational Attainment Trends, and Language Trends are entirely from the ACS. The Housing Trends section is derived from both: Decennial (Total # Housing Units, Housing Units per Acre, Owner-Occupied Units, Renter-Occupied Units, Vacant Units); ACS (Single-Family Units, Multi-family Units, Mobile Homes, Median Housing Value, Occupied Housing Units w/No Vehicle).

About the Census Data

(34) Use caution when comparing the 100% count data (Decennial Census) to the sample-based data (ACS). In any given year, about one in 40 U.S. households will receive the ACS questionnaire. Over any five-year period, about one in eight households will receive the questionnaire, as compared to about one in six that received the long form questionnaire for the Decennial Census 2000. (Source: https://www.census.gov/content/dam/Census/programs-surveys/acs/news/10ACS_keyfacts.pdf) The U.S. Census Bureau provides help with this process: <https://www.census.gov/programs-surveys/acs/guidance/comparing-acs-data.html>

(35) Race and ethnicity are separate questions on the Census questionnaire. Individuals can report multiple race and ethnicity answers; therefore, numbers in the Race and Ethnicity portion of this report may add up to be greater than the total population. In addition, use caution when interpreting changes in race and ethnicity over time. Starting with the 2000 Decennial Census, respondents could select one or more race categories. Also in 2000, the placement of the question about Hispanic origin changed, helping to increase responsiveness to the Hispanic-origin question. Because of these and other changes, the 1990 data on race and ethnicity are not directly comparable with data from later censuses. (Source: <https://www.census.gov/library/publications/2001/dec/c2kbr01-01.html>)

(36) The "Minority" calculations use both the race and ethnicity responses from Census and ACS data. In this report, "Minority" refers to individuals who list a race other than White and/or list their ethnicity as Hispanic/Latino. In other words, people who are multi-racial, any single race other than White, or Hispanic/Latino of any race are considered minorities. We use the following formula: MINORITY = TOTALPOP - WHITE_NH where TOTALPOP is the Total Population and WHITE_NH is the population with a race of White alone and an ethnicity of Not Hispanic or Latino. Translating this to the field names used in the census ACS source data, the formula looks like this: MINORITY = B01003_E001 - B03002_E003. (Note, the WHITE_NH population is not reported separately in this report.)

(37) Disability data is not included in the 2010 Decennial Census or the 2006-2010 ACS. This data is available in the ACS 2017-2021 ACS. Because of changes made to the Census and ACS questions between 1990 and ACS, disability variables should not be compared from year to year. For example: 1) with the 1990 data, the disabilities are listed as a "work disability" while this distinction is not made with 2000 or ACS data; 2) the ACS data includes the institutionalized population (e.g. persons in prisons and group homes) while this population is not included in 1990 or 2000; and 3) the age groupings changed over the years.

(38) The category Bachelor's Degree or Higher under the heading Educational Attainment Trends is a subset of the category High School Graduate or Higher.
