

FIN #210679-2

ABOUT THE PROJECT

Atlantic Avenue (State Road A1A/State Road 200/Jimmy Buffett Memorial Highway) from Centre Street to South Fletcher Avenue Resurfacing and Drainage Improvements

Fernandina Beach, Nassau County, Florida

The Florida Department of Transportation is scheduled to resurface and perform drainage improvements on Atlantic Avenue (State Road A1A/State Road 200/Jimmy Buffett Memorial Highway) from Centre Street to South Fletcher Avenue. The 1.62-mile project is expected to improve drainage, increase infrastructure resilience, and enhance safety and mobility for all roadway users while preserving the aesthetics of the historic community. The roadway has reached the end of its service life, making these improvements necessary.

FDOT will host a hybrid construction open house on Thursday, Sept. 24, from 4:30 to 6:30 p.m.

The public is invited to attend the open house in person at the Atlantic Recreation Center Auditorium at 2500 Atlantic Ave., Fernandina Beach, FL 32034.

The meeting is also being hosted virtually and the public can register online at nflroads.com/virtualmeetings (Webinar ID: 693-549-547). The public can also join by phone at (415) 930-5321 and entering access code 135-250-632.

Both virtual and in-person participants will be given equal opportunity to ask questions and learn more about the project directly from project team members.
